### **AERIAL PROJECT LOCATION MAP**

## **DEHESA ROAD / SYCUAN ROAD INTERSECTION IMPROVEMENT / SIGNALIZATION**

### **Section F**

- 1) Project Description: The proposed project will improve operation and enhance safety at the intersection of Dehesa Road and Sycuan Road by construction of a fully actuated traffic signal. Because this location is not on the County's traffic signal priority list, construction of this project is contingent upon approval by the local community planning group, Traffic Advisory Committee and the San Diego County Board of Supervisors.
- 2) Relationship between the project and impacts from casino: Traffic volumes in the Dehesa Road and Sycuan Road intersection have substantially increased since the opening of the Sycuan Casino and the casino's traffic comprises a very significant percentage of the total traffic passing through the intersection. While the improvements would not be necessary but for the Sycuan Casino traffic, the County, as previously committed, proposes to partner with the Sycuan Tribe and share the costs of the intersection improvements with the County portion of the costs represented through this grant.
- 3) Mitigation of Impacts: The improvements to the Dehesa Road/Sycuan Road intersection will improve traffic circulation for emergency vehicles and improve overall safety by reducing traffic congestion for the thousands of motorists (residents and casino patrons) per day who use the intersection and the connecting roadways.

### **Section M**

The construction contract will require that during construction, the contractor will erect a project information sign acknowledging that the traffic signal is being constructed using funds from the IGLCBC / Indian Gaming Special Distribution Fund and emblems/logos from the contributing tribes, Barona and Sycuan, would be included.
